

# Ammonium Nitrate

## Characteristics

Appearance	White prills
------------	--------------

Total Nitrogen (N), %	34.4
-----------------------	------

Ammoniacal N, %	17.2
-----------------	------

Nitric N, %	17.2
-------------	------

## Granulometry

1 – 4 mm, min, %	95
------------------	----

under 1 mm, max, %	3
--------------------	---

under 6 mm, %	100
---------------	-----

Moisture content, max, %	0.3
--------------------------	-----

Granule static strength, MPa, min	2
-----------------------------------	---

Friability (free flowing), %	100
------------------------------	-----
